- ▶ **Level of clean:** 10/10
- ▶ **Level of gloss:** 0/10
- ▶ **Color:** pink
- ▶ **Odor:** characteristic
- ▶ **Physical form:** liquid
- ▶ **Storage:** 5-35°C
- ▶ **Flammability:** Not flammable

### PRODUCT DESCRIPTION

Concentrated and no-acid cleaner, specifically developed to remove superficial rust and iron residues. Thanks to its formulation, it attacks and dissolves the metal oxide. Its action is effective both on rim and on car body. Is perfectly suited to eliminate rust from railways, tramways and metal particles from chimneys and industries. The PH neutral composition avoid the compromission of plastic/rubber parts, making the work-process safer.

### HOW TO USE

The product has a characteristic smell; we suggest using it outdoor or in well-ventilated spaces. First, clean the interested area. Then, the detergent should be sprayed directly on the surface. Let it work for a few seconds. Red-brown flowing down will appear, indicating that the dissolving process has begun. At last, the surface should be rinsed using a pressure water jet.

### FOLLOWING STEPS
