PRODUCT DESCRIPTION

No-acid cleaner, specific for the cleaning of every rim's type. It removes the hardest dirt, without compromising the surface. Its formulation contains release agents, that allow the residues detachment. After that, these will be easily removable using a water jet. BLITZ-OUT leaves an antistatic film on the surface, hindering the deposit of dirty and dust.

PREVIOUS STEPS

HOW TO USE

Do not use it on hot rims. Apply BLITZ-OUT directly on the interested rim, and let it work for a while, without letting it dry. If it's needed, scrub using a brush. At least, rinsed using a pressure jet. Although problems did not emerge, considering the wide range of aluminium alloy, it is always recommended to test on an inconspicuous area prior to general use. BLITZ-OUT 5kg version can be diluted from 10 to 20% with water, according to the level of dirt to remove.
